Combining traditional and innovative technologies in the conservation and development of a Jahili fort, a historic mudbrick building in the oasis-city of AL Ain, Abu Dhabi, U.A.E.

Saleh Lamei

Preservation of historic building in earthen architecture (Saudi Arabia)

Guido Licciardi

Protecting earthen architecture from rainfall erosion in Arg-e-Bam (Iran) and Tayma (Saudi Arabia)

12h30 – Questions

12h45 – Présentation des 2 publications : « TERRA INCOGNITA »

13h00 – Déjeuner

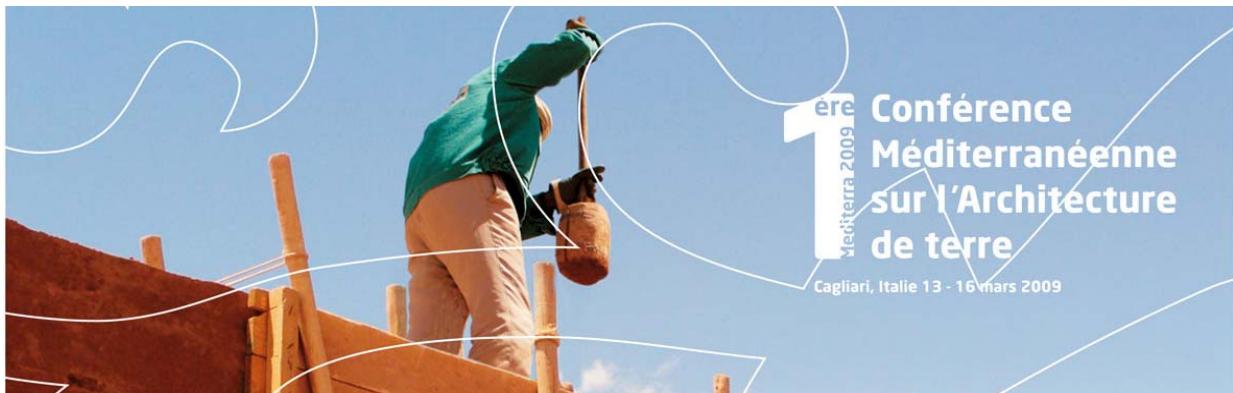

REGIONE AUTONOMA DELLA SARDEGNA

Escola Superior
GALLAECIA
escola superior universitária

SAMEDI, 14 mars 2009 – APRÈS-MIDI

THEME 4: Recherche en construction, architecture, urbanisme, et R&D

15h00 – **Thème 4 – Session A** (5 communications)

Romain Anger, Laetitia Fontaine, Hugo Houben

Influence de la teneur en sel et du PH sur la plasticité du matériau terre

Cirillo Atzeni, Mauro Coni, Maurizio Manias, Giorgio Pia, Ulrico Sanna

An industrial experience on ladiri production in Sardinia (Italy)

Giuseppe Berti, Mirta Paglini, Luisa Rovero, Ugo Tonietti

Statistical analysis of earthen corbelled domes in the Aleppo's Region (Syria)

Alessandra Bonazza, Gianfranco Carcangiu, Luigi Massidda, Paola Meloni, Cristina Sabbioni

Weathering and multipollutants agents impact on earth architecture: damage processes and vulnerability

Gilberto Carlos, Mariana Correia

Military topographies: earth fortresses between borders

16h10 – Questions

16h20 – Pause-Café

16h50 – **Thème 4 – Session B** (7 communications)

Youcef Chennaoui

Le matériau pisé à Cherchell (Algérie) : un autre type d'architecture en terre. Nature et filiation

Sanae Elkhanchoufi, Said Kamel, Rachida Mahjoubi, Jean Marc Vallet, Philippe Bromblet

Les portails de la Medina de Meknès, Maroc : Etat des lieux

Rute Eires, Aires Camões, Said Jalali

Compressed earth mixtures with metakaolin and lime additions and antifungal additives

Luigi Fenu, Francesco Aymerich, Paola Meloni

Influence of different reinforcing fibres on mechanical properties of an earthen material

Laetitia Fontaine, Romain Anger, Hugo Houben

Quelques mécanismes de stabilisation du matériau terre. De la terre stabilisée aux composites argiles – biopolymères

Silvano Piras

Abitazioni e strutture per il turismo in terra cruda

Sergio Sabbadini

Ricerche, sviluppi tecnologici, progetti per interventi attuali in terra

18h30 – Questions

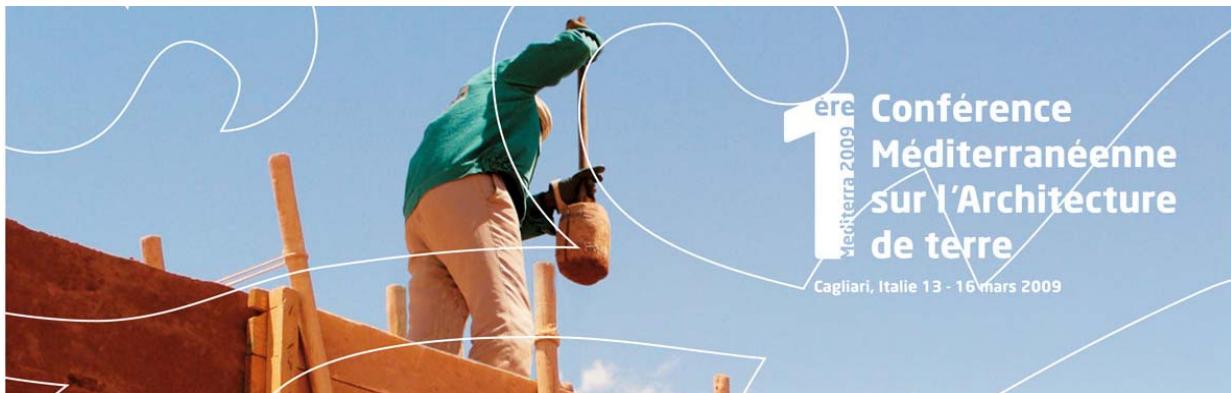

REGIONE AUTONOMA DELLA SARDEGNA

Escola Superior
GALLAECIA
escola superior universitária

DIMANCHE, 15 mars 2009 - MATINÉE

09h00 – **Thème 4 – Session C** (5 communications)

Fabio Fratini, Silvia Rescic, Luisa Rovero, Ugo Tonietti

The earth salt architecture of Middle Age in the Siwa oasis – Egypt

Caterina Giannattasio

La costruzione in terra cruda della Sardegna Meridionale: metodiche per la datazione delle strutture
