The Scientific and the Organizing Committees are glad to invite you to participate in the EURO PhD Summer School 'Operational Research for Value-based Health Care' that will be held in Lisbon (Portugal) from 1st to 8th of September, 2019.

This EURO PhD summer school aims to be a unique forum for PhD students and young researchers working in operational research in health to get acquainted with relevant topics to address health decision-makers needs and to generate sound operational research methods, knowledge and tools aligned with value-based health care. The school is promoted by the European Working Group of Operational Research Applied to Health Services (ORAHS) and by the Portuguese and Spanish Operational Research societies (APDIO and SEIO). The scientific programme was shaped so that participants will have the opportunity to learn and interact with renown scholars, as well as with real hospital decision-makers involved in the school organization.

Applications to the summer school will be opened from the **14th January to the 14th February 2019**. To apply, each applicant should submit:

- A CV with picture;
- A synopsis of his/her research field and problem (acknowledging previous publications on the topic) and the name of academic supervisor;
- A motivation letter;
- One reference letter.

Applications should be sent by e-mail to orvalueinhealth@tecnico.ulisboa.pt before **14th February 2019** (Greenwich time). Results will be announced by the **14th March 2019**.

Some information about the school:

- The summer school is sponsored by EURO (<https://www.euro-online.org/web/pages/1/home>) and supported by the European Working Group of Operational Research Applied to Health Services;
- Participants will pay a registration fee of 200€ that covers accommodation, meals (breakfast, coffee break, lunch and dinner), transport within Lisbon, and social activities; fees do not include travel costs to Lisbon;
- Financial support will be available to waive the fees for some participants;
- Participants will have the opportunity to submit their work to a journal special issue;
- Participation in the summer school confers 2.5 ECTS.

You can find in <http://orvalueinhealth.tecnico.ulisboa.pt/> information about:

- The scope of the school;
- The venue;
